160 Exactly why every individual person here needs to get to DC 01/06. The impact of one extra person is bigger than you think

No idea. But he certainly has the ability to tell the armed forces to stand down. Or to establish all of us present as "legal militia". He's got a lot of options as long as he has some of the military (Space Force, special ops teams, SS) on his side. Let's see how it goes. We have until January 20th don't forget.

1 That wouldn't bring more people to your side, it would drive people away. You guys that want marshal law and civil war aren't looking at the bigger picture. Look at the picture above, it's surprisingly accurate. We need to be careful and strategic, if we overstep we lose our momentum. In all honesty, as tough of a pill as it is to swallow the best course of action is to hold the line, not go away, and let our enemies continue to lash out because the more they do and more draconian they become the more that j r

ranks. If we become the aggressors then we become what they paint us as and confirm in the middle folks that we are the evil ones. f

▼ There's some truth to what you're saying but at the same time, let's just convince a couple million more so we can all be fucked by commies together. But at least we'll know that they're evil... The revolutionary war would have never been started if they thought only like you are right now. There's a time and a place. It could be the 6th. It could be after. Who knows

▼ How is this at all a smart move? Prepare for war. Don't run into a burning building to be a hero and save no one. Deep state can legit massacre the 10 people who show up armed and the sheep will cheer it on or not even know about it. We will not win a war when half the country thinks it's murder the preborn. We need God to win. I'm convinced more and more everyday that the other agencies are making the top posts on this site. If your neighbors aren't ready to fight you then you will lose.

3 Not a lot of military in DC. Bolling AFB/NAS is pretty small. Andrews AFB nearby but I wouldn't be too worried about the weeb Airman (Was Air Force, can vouch). Got Ft Belvoir to the south... there's the Army. They'd be the ones responding past DC Natl Guard. I'd like to think most would be upset about the elites shitting on the constitution, since that is what the oath is to, as well as the President.
